

Dear Student and Parent:

Below is the **TOOL LIST for Precision Machine. For the first couple of days the students are required to have item #'s 1, 2 and 3. All tools are required by the 2<sup>nd</sup> week of school!!!** The students are required to keep their tools available and in working order for the entire year. The students are encouraged to keep their tools locked up when not in use. However, each year some tools end up missing. In those cases the students are required to replace the tool so that they may continue to work. Some suggested suppliers for your tools are: **INTERNET: Amazon, Ebay, MSCDIRECT. Tools do not need to be new, yard sales and relatives are great resources to accumulate tools. If you have any questions on tools, wait till orientation. Keeping your receipts is strongly encouraged. MSCDIRECT.com is a company that has set up special pricing and an item number is highlighted in yellow by the item. It is not mandatory to buy from them, but you can price compare yourself if you wish. Instructions for ordering thru MSCDirect are provided.**
